

ABHISHEK SAINI

abhisheksaini200404@gmail.com | +91-9520652677 | [GitHub](#) | [LinkedIn](#) | [LeetCode](#)

PROFESSIONAL SUMMARY

Results-driven Software Developer with hands-on experience in full-stack web development and a strong foundation in Data Structures and Algorithms (DSA). Proven ability to design and deploy scalable, AI-integrated applications using modern frameworks including React.js, Node.js, and PostgreSQL. Experienced in building RESTful APIs, real-time systems, and cloud-deployed platforms. Solved 1000+ competitive programming problems with a max LeetCode rating of 1709.

TECHNICAL SKILLS

Languages: C, C++, Python, Java, JavaScript

Frontend: React.js, HTML5, CSS3, Tailwind CSS

Backend: Node.js, Express.js, REST APIs, WebSockets

Databases: PostgreSQL, MySQL, MongoDB

Tools & Platforms: Git, GitHub, VS Code, Vercel, Cloudinary, Supabase, Render

Core Concepts: Data Structures & Algorithms, Object-Oriented Programming (OOP), Authentication & Authorization, Real-time Systems

WORK EXPERIENCE

Technical Intern | ICSCIS-2026, CSJMU [\[Certificate\]](#)

Feb 2026 – Apr 2026

- Developed and deployed the official conference website for ICSCIS-2026, implementing responsive design principles that ensured seamless user experience across all devices.
- Managed end-to-end technical operations of the conference platform including updates, performance optimization, and deployment support using modern web technologies.

Software Engineer Intern | Yuga Yatra Retail (OPC) Pvt. Ltd. [\[Certificate\]](#)

Aug 2025 – Oct 2025

- Contributed to full-stack web development by designing, building, and optimizing frontend and backend components using React.js, Node.js, and REST APIs.
- Leveraged AI-assisted development tools to accelerate feature delivery, improve code quality, and reduce debugging time by an estimated 30%.

PROJECTS

CodeCanvas AI [\[Live\]](#) | [\[GitHub\]](#)

- Engineered a scalable full-stack DSA learning platform featuring curated problem sheets, real-time code execution, and an AI-powered assistant using Google Generative AI for guided problem-solving.
- Built robust backend services with Node.js and PostgreSQL, optimizing database schemas and API response times for high-concurrency usage.

Code Hub [\[Live\]](#) | [\[GitHub\]](#)

- Built a full-stack competitive coding platform supporting real-time code execution, JWT-based authentication, and role-based access control for admins and users.
- Designed and implemented RESTful APIs with optimized MongoDB schemas to efficiently manage coding problems, test cases, and user submissions at scale.

Weather App [\[Live\]](#) | [\[GitHub\]](#)

- Developed a responsive weather application integrating third-party REST APIs for real-time meteorological data retrieval with low latency and high accuracy.
- Implemented dynamic location-based search and auto-suggest functionality, significantly improving user interaction and data retrieval speed.

EDUCATION

Bachelor of Technology – Computer Science & Engineering

July 2023 – July 2027

Chhatrapati Shahu Ji Maharaj University, Kanpur, Uttar Pradesh | CGPA: 8.2 / 10.0

ACHIEVEMENTS & COMPETITIVE PROGRAMMING

- Solved 1000+ DSA problems across competitive programming platforms, demonstrating consistent problem-solving aptitude and algorithmic thinking.
- [LeetCode](#): 1709 (Top Percentile) | [CodeChef](#): 1630 (3-Star) | [Codeforces](#): 1249 (Pupil)
